EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Augustus Winfield on April 11, 2005.

The application has been amended as follows:

Cancel claims 11, 17 and 19-22.

In claim 3, line 4, before the term "pivoting", replace "the pads" with --each pad--.

Allowable Subject Matter

2. Claims 3 and 18 are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance: a scanner as claimed, more specifically in combination with: each pad pivoting around a pivot point wherein the distance between the platen and the optical head is different for the first and second positions of the pads; or translating a photosensor array substantially parallel to the platen, where a first direction of translation causes displacement of a first distance and a second direction of translation causes displacement of a different distance, is not disclosed or made obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance.”
